Class 1 to 2 - Pink

Class 2 to 3 - Orange

Class 3 to 4 - Green

GIVE ME SPACE!

At the club, we occasionally have dogs here that require some 'space' around them. Like people, all dogs are different. Some dogs don't appreciate their space being encroached upon by handlers or other dogs, especially dogs that are boisterous and in their face. These vests are not exclusively for aggressive dogs but also for dogs that may have fear based behaviors. To identify these dogs, they wear a yellow vest, similar to the picture below.

By a dog wearing these space vests the club believes it is a safe way for the dog to still participate in class and slowly socialise and integrate within their training class. This also makes the class as safe as possible for all handlers and their dogs and instructors too. Remember, we are working with animals and some can be unpredictable, so we need you, our members, to learn to recognize the dog that need a little extra 'space'. So please help the handler and their dog by keeping your dog a reasonable distance away from them. You may be asked to move further away by the owner if they feel you are too close, please respect their request.

Please do not get offended if your dog is asked to wear a 'space vest' in class. We have vests for small dogs and up to large dogs.

If your dog needs to wear a space vest - enquire/or collect one from the office. We will require a \$5.00 deposit when you pick up the space vest - the vest must be returned promptly at the end of your class, so members from the next hour can access it. The vest is only for use on the training ground. Your deposit will be returned to you when your return the vest. Your deposit will be forfeited if any vest is returned damaged.

WAGGERS ON TRIAL

PLEASE NOTE: *If you would like your trial results printed in the Werribee Wagger, please pass your results onto the Editor. Due to the limited space in the Wagger, only qualifying passes will be printed.*

You can also email your results to: info@werribeeobediencedogs.org OR collect a form from the training table, fill it out and leave it at the office counter.

Dog Photo's on the Wall:

If your dog gains a title we would love to display their picture on the wall.

The pre-requisite for a dog picture to go on the wall is that the dog must have gained an obedience, tracking, agility or endurance title first. You will need to provide an 8"x 10" picture (portrait only) and all your dog's relevant details for a photo to go up on the wall. It is also your responsibility to inform the Secretary in writing if you require that your dog's photo details need to be updated at any stage. If you have any queries, talk to the Secretary.

The Lost Dogs' Home Blanket Appeal

How to beat the Winter chills is on everyone's mind this season as temperatures drop.

Our four-legged friends may be covered in hair and know how to tactically curl themselves into a ball to stay warm, but it doesn't mean they still don't feel the icy pinch of a cold Winter's night.

The Lost Dogs' Home relies totally on generous donations from the public of blankets, towels, soft dog beds and coats to help keep the thousands of dogs we care for each winter, warm and cozy. Combined with electric under floor heating in every pen, a warm blanket makes a huge difference to our ability to provide comfort for abandoned and lost dogs.

Winter is a bad time for animals to find themselves lost or homeless on the street, exposed and vulnerable to often freezing temperatures can pose serious health threats.

The Lost Dogs' Home and other Animal shelters around Australia often experience an influx of unclaimed stray and abandoned dogs at this time of year. We believe this is because puppies acquired over the Christmas holidays have grown into active adolescents requiring lots more training and exercise. However coinciding with the onset of cold, wet weather and shorter days many owners are less inclined to get out with their young dog when they need it most.

Dogs that are confined in back yards for long periods of time, starved of company and not stimulated through exercise and training can develop a range anti social and destructive behaviors. It's the reason many escape and stray and others are handed over by their owners to shelters as 'too hard to control'.

The end result is that the average stay for dogs at the Home during winter is longer. We need your help to be able to provide them with a little warmth and comfort during their stay. A donated blanket provides a lost and abandoned dog with a cosy place to retreat and gives a sense of security.

The Lost Dogs' Home Blanket Appeal

Werribee Obedience Dog Club Inc. is running a Blanket Drive for The Lost Dogs Home in North Melbourne.

A large number of animals that are picked up as strays in the City of Wyndham end up being sent to The Lost Dogs Home in North Melbourne.

As responsible dog owners we all need to do our small bit to help dogs in need.

Therefore for the WHOLE month of June we will be collecting items to be taken to The Lost Dogs Home in North Melbourne. At the end of June one of our committee members will hand delivery all the items collected to the shelter

There will be a large box on a table in the clubrooms marked Lost Dogs Home Donations. If you have any of the following items you would like to donate to the shelter please place them in the box. Remember, every little bit helps!! And the strays Thank You!

Below are some of the items The Lost Dogs Home needs:

Blankets and towels

A warm and cosy bed makes the world of difference to the dogs and cats. Along with towels and blankets, second hand dog beds are appreciated too.

Dog and cat food

Dry and tinned dog and cat food (including puppy/kitten food) is always needed. We go through tens of thousands of tins of pet food each year, which equates to over \$100,000-worth.

Dog coats and jumpers

We receive many beautiful jumpers and coats from our supporters and it gives us great pleasure to give them to the dogs and cats.

Medical/veterinary supplies

Throughout the year many hospitals and veterinary clinics/suppliers provide the Home with various unused supplies (bandages, syringes, surgical equipment and consumables also worming and flea products still in date)

Dog and cat toys, kitty litter and dog leads and collars

Durable pet toys help keep dogs and cats occupied whilst at the Home. Dog leads and collars are used to give dogs for adoption exercise whilst they await new homes and with over 9,000 cats staying at the Home each year, we use a great deal of kitty litter (all types).

Unfortunately we are unable to accept donations of the following: Eiderdowns, doonas, pillows and quilts. Household goods (furniture, electrical goods etc) and Clothing

Canine Blood Bank Outpatient Donor Program

University of Melbourne 250 Princes Highway, Werribee

The Canine Blood Bank supplies blood and plasma products to our Hospital and to veterinarians throughout Australia.

About Us: Our blood and plasma products are used to help save the lives of hundreds of dogs with a wide variety of medical problems, including trauma, autoimmune destruction of red blood cells, poisoning by rat baits and inherited disorders of blood clotting. They are also used in orthopaedic surgery if the patient loses a large amount of blood during an operation.

The Canine Blood Bank has two groups of blood donors. There are 50 resident Greyhounds and a growing number of privately owned pets (at the last count about 150 dogs). The "Back a Blood Hound" program has been launched to find sponsors to assist with the cost of feeding and caring for our resident dogs. (These are all Greyhounds who are retired from racing, mostly because they could not run fast enough!)

The canine blood bank requires donors for its outpatient blood donor program. We are very pleased to have support from over 200 donors for this important community service. It is one of the few such programs in the world.

What happens at your first visit?

Your first visit to the University's Veterinary Hospital at Werribee or one of our satellite clinics is to establish base-line data on your dog, thus confirming his/her suitability as a blood donor. This assessment will include a clinical examination, the collection of a blood sample, and the verification of current vaccination, worming and heartworm prevention status. We will also take a first blood donation from your dog providing he/she is assessed to be in good health on examination and that the on-the-spot blood tests which rule out anaemia are within normal range.

The remaining blood sample will subsequently be analysed in the laboratory, to check that your dog has normal haematology (red blood cells, white blood cells and platelets), normal biochemistry (looking at various aspects of kidney, liver and endocrine function), normal blood clotting and is negative for heartworm. These results will be available within 10 days. There will be no charge for this examination or blood testing.

If any abnormalities are detected, we will contact you (and your usual veterinarian) so that arrangements can be made to investigate the problem further. Such investigation would be at your expense. The dog would not be considered as a blood donor until he/she returns to normal health.

Dogs who pass this initial screening process will be invited to become regular blood donors. We will notify your usual veterinarian of your involvement and blood test results for their records.

We hope that regular blood donors can visit the Veterinary Hospital, or one of the satellite clinics, once every 3 months for a donation. Donors must be maintained on heartworm prevention to ensure Heartworm Disease is not passed on through their donations.

What is involved in collecting blood from my dog?

Your dog will need to be fasted overnight. This means that he/she must not eat anything after midnight the night before the donation. Water may be provided throughout this period.

You will need to be able to spend about 45 minutes here for the donation.

On arrival, your dog will be given a physical examination and a blood sample will be collected to ensure that he/she is not anaemic. It will take about 5-10 minutes to obtain these results.

The actual blood collection procedure is similar to that used in people. The blood is collected in a sterile manner. This requires that we clip some hair from the neck (over the jugular vein) and disinfect the area with antiseptic. The dog is required to lie quietly on his/her side, while the needle attached to the blood pack is inserted into the vein and the pack is filled. This will take about 6-9 minutes. A total of 450 ml of blood is collected. The pack is then stored for processing and your dog is observed for about 5-10 minutes, to ensure that there is no bleeding from the venepuncture site.

Are there any adverse effects of blood donation for my dog?

The blood collection procedure is very safe. Large dogs (over 25 kg) are readily able to donate 450 ml of blood.

The cells will be replaced by the bone marrow over the next few days. Nevertheless, we recommended that your canine companion be given a few days of rest from strenuous exercise after donating a pack of blood.

What will be done with the blood once it is collected?

The blood pack is spun in a large centrifuge, to separate the cells from the liquid portion (or plasma). The red blood cells are then stored, for up to 6 weeks, in a refrigerator until required. They are used to treat a variety of anaemias. The most common cause of anaemia is blood loss (haemorrhage) from trauma. All the plasma products are frozen until required. They are used to treat a variety of disorders of blood clotting, including haemophilia, von Willebrand disease and accidental poisoning with rat-baits.

RING TRAINING

CLASSES 6, 7 & 8

The trial training rings and equipment will be set up from 1.00pm after Agility have packed up and left the training ground. A pre-requisite to using the rings is that everyone who uses the rings must help with the setting-up or packing up of equipment. Those members who do not help out will be asked to do so. The designated starting time for Class 6 is 1.30pm. Class 7 is 1.10pm, Class 8 (UDX) will be between 1.20pm and 2.50pm with Class 5 (Novice) using the same ring after UDX, between 3.00pm and 4.15pm. Depending on numbers, classes 6 & 7 should finish at approximately 3.30pm.

TO USE THE RINGS: --

You are required to put your name down on the designated class clipboard/s, which are located on the canteen counter. You can only put your name down, not other members. You need to indicate if you are going to help with setting up or packing up. The rings are run on a first in, first served basis. If you set up equipment for your own use and no-one else is planning on using it, then please place it back onto the equipment trolley. Please be considerate time-wise in the rings and stick to your allotted time and do not overstay your welcome. Importantly, ensure you make arrangements for someone to put you through before your allotted time slot starts.

THE GROUP STAY EXERCISES WILL BE CONDUCTED AT 2.30PM FOR ALL TRIALING NOVICE, OPEN AND UTILITY.

For Stays - a search party for your participation WILL NOT be conducted. Make yourselves available at the designated time or unfortunately you may miss out. Normal ring practice will resume at the conclusion of the group stay exercises. After ring training is finished, members can organise amongst themselves extra stay exercises if required.

Instructors are not appointed for Classes 5, 6, 7 & 8 members. This is a self-help situation. There are experienced trialing members who are more than qualified to help you and your dog if you so wish. Make yourselves available to assist others as they would to you. If you give a little, you may get a lot in return! Should you be in need of instruction for any of the classes, all you have to do is ask someone at the rings. Any concerns or issues regarding Ring training should be directed to the Secretary.

CLASS 5

(Ring Use at 3.00pm - Aspiring Triallers only)

A Novice ring is now being provided for Aspiring Triallers or current Class 5 trialing members. After the UDX dogs have finished the novice ring will start with the first dog at 3.00pm after the 2.30pm Group Stays.

The criteria to enter the Novice ring is:

1. Your dog must have achieved its CCD title (Community Companion Dog Title) or you are currently trialing your dog in Novice.

To use the rings you must enter normal class 5 first, which is conducted at 3.30pm. If an instructor is available they will be appointed to take the ring then and only then may you have use of the ring. Remember though, if no instructor is available then, no ring practice.
